

Wine Bottle and Beer Can Collection Drive at Montgomery's Inn

Throughout the duration of the weekly Farmers' Market held at Montgomery's Inn, the Rotary Club of Toronto West staffed a booth to collect wine bottles and beer cans from community members.

The items collected were returned to the Beer Store and other locations to recoup funds for recycling.

These donations contributed significantly to our COVID-19 fundraising, which enabled us to pay for related initiatives and make donations to organizations that were helping people and businesses in our community.

Because this initiative was successful and popular within the community, we plan to continue it next year and beyond.
